

PSS 7000

CONNECTION

May, 2008

Dear Authorized Dräger Stocking Respiratory Distributors,

Dräger is pleased to introduce a completely new SCBA compliant to NFPA 1981 and NFPA 1982, 2007 Edition. This new SCBA will be unlike anything on the market currently. The new PSS 7000 utilizes the new FPS 7000 facepiece, HUD, communications and CBRN LDV. It also introduces the Sentinel 7000 which passed the new version of NFPA 1981 and NFPA 1982. These new standards require hardened electronics in order to pass the new, far more stringent testing.

The PSS 7000 is now approved and available.

The approval letters from NIOSH and NFPA are attached.

TC-13F-555: 2216 PSI/30 Minute
TC-13F-556: 4500 PSI/30 Minute
TC-13F-557: 4500 PSI/45 minute
TC-13F-558: 4500 PSI/60 Minute
TC-13F-555CBRN: 2216 PSI/30 Minute
TC-13F-556CBRN: 4500 PSI/30 Minute
TC-13F-557CBRN: 4500 PSI/45 minute
TC-13F-558CBRN: 4500 PSI/60 Minute
